U.S. Patent and Trademark Office PTO-326 (Rev. 11/00)

Part of Paper No. _______

Application/Control Number: 09/305,178

Art Unit: 1761

Page 2

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 16, 2001 has been entered.

2.— The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claim 41 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

There's no support in the original disclosure for the limitation recited in claim 41.

Table 2 in applicant's spec. discloses a glass transition temperature of 35.3°C for a 3% water content.

- 4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Application/Control Number: 09/305,178

Art Unit: 1761

5. Claims 39-46 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yatka et al (5,458,892) or Meyers et al (5,236,719).

Page 3

Yata et al is described in the paragraph bridging pages 2 and 3, Paper No. 16.

Also, see Examples 190 to 192 in Yatka et al for the use of a polyol and pyrodextrin is in hard candy. Although the soluble, Yatka et al (cols. 6 and 9) discloses that lactitol or mannitol are viable alternatives for the polyols in said examples. Meyers et al also disclose candies which include a pyrodextrin and lactitol or mannitol (col. 4).

Additionally, the claimed molecular weight of 4000 to 5000 daltons is merely preferred by applicant (page 11 of spec.) and is thus not critical. Further, said molecular weight is a result effective variable which, in the absence of unexpected results, is merely an obvious matter of choice.

- 6. Applicant's arguments with respect to claims 31-38 submitted October 19, 2001 have been considered but are most in view of the new ground(s) of rejection.
- 7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arthur Corbin whose telephone number is (703) 308-3850. The examiner can normally be reached on Tuesday Friday from 9:30 AM to 7:00 PM. The examiner can also be reached on alternate \mathcal{H} $\Rightarrow \mathcal{L} = 1$.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton Cano, can be reached on (703) 308-3959. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9310.

Application/Control Number: 09/305,178

Art Unit: 1761

Page 4

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0661.
